

The Accutech Advantage

Innovative Control Systems, Inc. (ICS) was founded in 1985 and is headquartered in Franklin, Wisconsin. With over 23 years in the Patient Security business, ICS has manufactured advanced electronic monitoring and security systems under the name of Accutech.

Accutech's market-leading infant and pediatric protection and wander prevention solutions are trusted by thousands of healthcare institutions nationwide.

Accutech security systems are installed and serviced through a national network of authorized dealers, and backed by the industry's most comprehensive customer support program.

Accutech's Competitive Edge:

- Accutech's Cuddles Infant Protection System is the first of its kind to be Security UL Listed
- Time tested - 23 years in the Patient Security business
- Dedicated to Healthcare
- Patented Patient Security technology
- Most reliable Patient Security Products on the market

Accutech is ready to help you find the right solution for your security needs.

Searching for Solutions

Accutech's line of security solutions offer an unprecedented level of protection against infant abductions and patient wandering, yet each system requires little administration and training. With unparalleled security comes the reliability that you and your staff can depend on every day to keep your infants and residents safe.

Cuddles Infant Security System

- Only soft bracelet on the market
- Tag doesn't have to touch the baby's skin, so no false alarms
- Won't cut or chafe baby's skin
- Adjustable - won't fall off due to post-birth weight loss
- Easy to use - Nurses love the Cuddles Infant Protection System
- Designed for Security - System is not computer dependent to provide security

ResidentGUARD Patient Wandering System

- Easy to use and maintain
- Limits liabilities
- Prevents unauthorized exits
- Scalable and backward compatible
- Interference free 418 MHz frequency range
- Lighted LED on Tag when Tag is active.
- LC 1200 is designed to be self installed, saving time and money

Meeting Your Needs

It's a choice leading hospitals and assisted living facilities have made, and a choice parents and family, nurses and administrators, and security staff alike can wholly support.
